

TRAINING CERTIFICATE FOR THE UTILIZATION OF THE NEVA NEURO-THROMBECTOMY SYSTEM

This certificate is awarded in recognition of the below medical staff for successfully completing hands-on training for the application of the NeVa neuro-thrombectomy device.

Participants received in-depth instruction on the NeVa Drop Zone Retrieval Technique™, smart marker technology, proper sizing and device selection and have demonstrated the ability to successfully deploy the NeVa device to engage and remove clot.

- Choosing the correct size of NeVa
- Choosing the microcatheter to use with NeVa
- Positioning NeVa with regards to the clot / occlusion
- Deploying NeVa and anticipating late anchoring effect
- Using the drop zones to incorporate hard clots
- Using the smart markers during the procedure
- Dealing with high clot burden: CAPTIVE/ SAFE techniques
